## about us

Chubby Cheeks Organics has been seven years in the making. It all started when my sister, Malak French, had a beautiful baby girl and wanted to give her the best start in life by cooking her only homemade organic baby food.

My sister had a full time job and she found herself not having the time or energy to cook fresh, nutritious meals regularly for her daughter, resorting instead to store bought jars. She used to tell me all the time that she wished there was someone she could trust to make her daughter's baby food for her. We agreed that if we ever start a business of our own, that's exactly what we will do!

Six years later I, Hiba Van Dyk, had a handsome baby boy and naturally I also wanted to give my son only the best from day one, but when weaning started, so did the grey hairs. That is when we decided it was time to help other mummies and daddies out by giving them more quality time with their families and less time worrying about food preparation for their babies.

So with the love, support, brains and brawn of our great husbands Chubby Cheeks Organics was born.
